

This exploded perspective view shows the assembly 100. It includes a base plate 8 with a curved support 7. A curved member 6 is positioned above the support. A bracket 17 is shown above the base. A component 5 is shown with a rotation arrow, and its part 5a is indicated. A small rectangular component 10 is shown near the base. A bolt 11 and a nut 12 are shown at the bottom right. A curved member 9 is shown at the bottom left.
